

# RSBL launches 'SPOT' mobile service

**PBD BUREAU**

---

NEW DELHI, FEB 24

THE volatile market conditions for gold and silver provide great impetus for investors to trade with these precious metals. For striking the right deals at the right time, an investor needs to be constantly updated with the fluctuating bullion rates, in order to choose the smartest move and grab the best opportunity. Now, keeping an eye on the variations and latest rates can be at one's fingertips. RiddiSiddhi Bullions Ltd. (RSBL) introduces RSBL SPOT (Mobile version), an application that will provide live international Gold, Silver, Platinum, AM/PM fix & Forex rates on your mobile phones.

Launched by RSBL, this application is an excellent information tool, empowering traders to keep an eagle's eye on the bullion market, even when they are up on the go. The application does not levy any charges and can be downloaded free of cost.
