

Handpicked by the Purple Tag sleuth for that distinct edge above the mundane

FLORALLY FEMININE

This set of earrings and pendant has been designed by Sparsh - Touch of Elegance, keeping in mind festive occasions. The piece has been crafted out of 50 grams of 18 K gold and embellished with VS quality diamonds along with other precious stones like rubies, emeralds and pearls. The jewellers at Sparsh take pride in the fact that these pieces are completely hand-made. It is no wonder then that the entire process took around 20-25 days.

3 things that we

- ✓ Contrasting hues
- ✓ Floral delicacy
- ✓ Craftsmanship

FF At Sparsh, it is always a well-collaborated team effort. Right from the craftsman to the director, everyone is involved in the process and plays different roles in the making of each piece. There is a reason why we chose the colours—red, green, maroon and white in these pieces—these colours are commonly found in all attires. Hence you can drape yourself in just about anything and add that Sparsh shimmer to your attire.
